Machinery of Department to Be at Disposal of Those Seeking Loved Ones.

The following announcement has been made by the Postmaster General:

"It is my wish that the machinery of the postal service be placed at the disposal of those searching for loved ones who have dropped from sight. Every year thousands in this country are reported missing—children, young men, young women, husbands and wives. Some never to be heard of again by their distressed families and friends.

"The Post Office Department with its organized facilities reaching into every corner of the land may be of practical service to the distressed. Therefore, they are willingly offered for this purpose.

"There is no intention of interference with private affairs or to act as a collection agency. Postmasters will scrutinize and investigate carefully each case reported to them and when convinced of its genuineness will make such inquiries of other postmasters as the circumstances may warrant and advise the interested relative or friend."
